

Welcome to Kindergarten!

The Harford County Public Schools Full Day Kindergarten Program is challenging and fun! We encourage you to become involved in your child's kindergarten experience. Online links are available to provide your child with opportunities for home practice and reinforcement of kindergarten concepts. Please communicate questions, comments, or concerns to your child's teacher as they arise. Together, we can help your child achieve kindergarten success!

For specific information about the curriculum framework and standards for kindergarten, visit the following state and county education links:
